Jockey Club Centre for Positive Ageing

Be proud of your works towards people with dementia!

Course objective

The key objective of the course is to develop an advanced understanding of multidisciplinary perspectives about dementia and approaches to dementia care.

The course also aims:

- ▶ to address clinical issues in dementia care and service delivery
- ▶ to enhance the collaborative effort and holistic care by multidisciplinary intervention
- ▶ to strengthen the ethics and clinical assessments in dementia care
- ▶ to analyze the existing research, approaches and applications in local context
- ▶ to develop knowledge and skills of social services evaluation related to dementia care

Chief organizer

Department of Medicine and Therapeutics, Faculty of Medicine, The Chinese University of Hong Kong (CUHK)

Joint organizer

Jockey Club Centre for Positive Ageing (JCCPA), an organization which aims to uplift Hong Kong's dementia service through providing high quality service, training and research

Course overview

Curriculum:

ADPDC C1	Understanding Dementia from Different Theoretical and Practical Perspectives
ADPDC C2	Advanced Dementia Care and Dementia Project Development
ADPDC C3	Practicum and Case Studies

- ▶ The course contains two modules and clinical practice which the participants are required to attach in JCCPA. Each module (ADPDC C1 and ADPDC C2) consists of 12 lectures.
- ▶ Lecturers and honorary guest speakers from various health care professions are invited for specific topics.

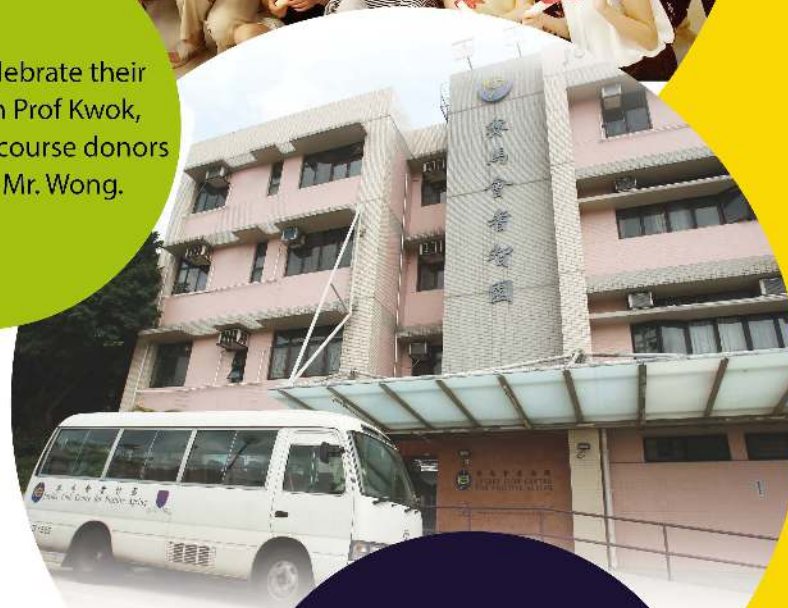

Admission requirement

- ▶ Applicant who is health care and social service professional, including social worker, nurse, occupational therapist, physiotherapist, etc, is preferable.
- ▶ Applicant from related discipline with relevant work experience who wishes to pursue study in dementia care is also welcomed.
- ▶ Higher Diploma / Associate degree or above

Short-listed applicants may be required to attend an interview. They will receive individual notification by email or phone.

The students celebrate their graduation with Prof Kwok, speakers and the course donors Ms. Kwan and Mr. Wong.

The Jockey Club Centre for Positive Ageing was inaugurated in June 2000 and provides quality care to people with dementia. JCCPA is devoted to provide training for professionals and consultancy services for organizations that wish to uplift overall care standards and effectiveness.

Graduates' sharing

“The course made me realized the crucial importance of person-centred approach to dementia care. The knowledge and skills helped me to develop new awareness and ability. I am feeling reassured, supported and be confident to provide effective strategies while engaging vulnerable or complex care for the people with dementia.”

RN, Ming Wai, 2011 graduate

“This course facilitates me to attain professionalism and enhance my comprehensive understanding towards dementia, people with dementia and the caregivers. Inspired by this course, I learnt to adopt a more person-centred approach. Understanding is just enough but being empathetic will surely make a difference.”

RSW, Gary Sham, 2015 graduate

“The course enhanced my knowledge and spectrum of management in dementia. Through multi-disciplinary model and understanding about person-centred care approach, I am equipped with the capability to formulate a management plan for people with dementia patients in an efficient way. The arrangement of different clinical visits further broadened my view on the implementation of person-centered care model for clients with different stages and types of dementia.”

ROT, Ronny Lam, 2017 graduate
