Detailed programme outline

### Programme Leaders

Professor Timothy KWOK Chi Yui, Programme director  
Dr. Kenny CHUI Chi Man, Programme co-director

\* Programme students will have onsite access to CUHK Library Resources

## Admission Requirements

- Applicant who is health care and social service professional, including social worker, nurse, occupational therapist, physiotherapist, etc, is preferable.
- Applicant from related discipline with relevant work experience who wishes to pursue study in dementia care is also welcomed.
- Higher Diploma / Associate degree or above.

## Organisers

- Chief organiser:** Department of Medicine and Therapeutics, Faculty of Medicine, The Chinese University of Hong Kong (CUHK)
- Joint organiser:** Jockey Club Centre for Positive Ageing (JCCPA)  
JCCPA was inaugurated in June 2000 and provides quality care to people with dementia. JCCPA is devoted to provide training for professionals and consultancy services for organizations that wish to uplift overall care standards and effectiveness.

## Graduation Requirements

To be awarded the qualification, students are required:

1. To fulfill the attendance rate:

Attendance	Percentage
Lecture	80% or above
Clinical Practice	80% or above

2. To pass on each assessment:

Curriculum	Assessment
ADPDC C1	Presentation I Case Report*
ADPDC C2	Presentation II 2,500 words Assignment
ADPDC C3	Reflection

\* Students have to search for case studies by themselves and JCCPA WOULD NOT be responsible to provide any case and coordination work, e.g. seeking consents etc.

## Sharing from Alumni

“ The course made me realised the crucial importance of person-centred approach to dementia care. The knowledge and skills helped me to develop new awareness and ability. **I am feeling reassured, supported and be confident to provide effective strategies while engaging vulnerable or complex care for the people with dementia.** ”

**RN, Ming Wai**

“ This course facilitates me to attain professionalism and enhance my comprehensive understanding towards dementia, people with dementia and the caregivers. Inspired by this course, **I learnt to adopt a more person-centred approach. Understanding is just enough but being empathetic will surely make a difference.** ”

**RSW, Gary Sham**

“ The course enhanced my knowledge and spectrum of management in dementia. Through multi-disciplinary model and understanding about person-centred care approach, **I am equipped with the capability to formulate a management plan for people with dementia in an efficient way.** The arrangement of different clinical visits further broadened my view on the implementation of person-centred care model for clients with different stages and types of dementia. ”

**ROT, Ronny Lam**
